

Mostra in a nutshell.

Mostra is one of the leading integrated communication agencies, specialising in public information campaigns across Europe. For the past fifteen years, we have been working mainly with European Institutions (including the European Commission, the European Parliament and EC Delegations outside Europe) and other international organisations.

Mostra specialises in the design and implementation of all aspects of a communication campaign, and their integration into a coherent and powerful whole. Designing communication strategies, therefore, is just one of the services that Mostra can offer, along with audiovisual production, creation of publications, organisation of events, media relations, development of websites, multilingual translations, etc.

The company, which was founded in 1986, presents a stable growth and its annual turnover for 2008 was over 23 million euros. It currently employs a multidisciplinary and international team of around 135 full-time communication professionals including project managers, production managers, journalists, graphic designers, video editors, event coordinators, media relations officers and translators.

Mostra is headquartered in Brussels with a network of partner agencies in the 27 EU countries and beyond. We are also a member of PROI, the leading worldwide network of independent PR agencies encompassing more than 1,800 consultants in 75 cities.

Combining our on-site audiovisual facilities (including 14 digital editing suites connected to our extensive video archive), graphic & web design studio (including more than 12 graphic workstations) and media relations floor, we are able to offer creative synergies, maximum efficiency and a truly integrated approach to our clients' needs.
